

"I highly recommend Joe Little and Lean Agile Training. I attended the 2-day ScrumMaster class followed by the 1-day Agile Release planning workshop. Joe was very personable and knowledgeable, demonstrating best Agile practices as a recovering Waterfall-holic. I enjoyed his frequent application of Yogi Berra quotes as well as the Penny game and Planning Poker to bring the Scrum lessons to life. The takeaways were numerous and my career feels fresh because of it. The course was of great value and I'm already looking forward to my next workshop opportunity to grow in Agile training with Joe!"

"I have to say that of all the courses that I have had in the last 20 years that I found CSM to be the most useful to apply on a daily basis and that Joe's delivery style made it possible to pack such power info into the short time frame available. It's refreshing to go to a course so well organized and info packed but still be able to take away several items that you start introducing into your work environment for the betterment of both your project and your team."

"I am now a certified ScrumMaster (CSM). Thank you for providing a very thorough and inspiring ScrumMaster course in Montreal. Your generous course discount allowed me to attend all three days. In those three days, I gained the knowledge and courage which will help me find that next, great career opportunity. As Yogi Berra said "The future ain't what it used to be." So I am now on the Agile journey which will help me to face the future. :-)"
